POPULATION OF NEW YORK BY COUNTIES AND TOWNS,

Census of 1890.

Cities are indicated by a *. The population of villages is also given, the names of villages being in *italic*, and immediately following the town in which they are located. The population for the town *includes* the population of any village or villages in that town. Where a village lies in two counties or towns, it is given with the town containing the larger portion of the population.

TROY STREET DIRECTORY.

Giving the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, on page 31, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

FIRE ALARM TELEGRAPH.

CENTRAL OFFICE, ARBA READ STEAMER HOUSE.

Location of signal stations, and rules and regulations to be observed in giving an alarm of fire.

Directions to those holding signal Station Keys.

If a fire is discovered in your immediate vicinity, go to the nearest Box. Pull the Hook all the way down *once* and let it go; wait a minute and if you hear no tap in the Box, or alarm from the Bells, go to the next nearest Box and pull the Hook as before.

If convenient, wait at the Box and direct the Firemen to the fire.

CAUTIONS.

1. Never open the Box, or touch the Hook except in case of fire *near you.*
2. Never pull the Hook when the small Bell in the Box is tapping.
3. Never let the key go out of your possession, except to some known responsible person, to give an alarm.

EVERY POLICEMAN HAS A KEY.

NOTICE.

Complaints concerning the working of the Fire Telegraph, Irregular Striking of the Bells, or Tapping of the Boxes, etc., should *in all* cases be made to the superintendent, James Knibbs, at the Fire Alarm Office, Arba Read Steamer House.

MANNER OF STRIKING ALARMS.

Alarms of fire will be sounded by striking the Number of the Signal Stations on the City Hall, St. Joseph's, St. Mary's, St. Patrick's and St. Michael's Church Bells, 3d Precinct Station House, and the Engine House Gongs, as for example: For Station No. 3, three consecutive blows, followed by an interval of twelve seconds; Station No. 35, three blows with an interval of five seconds; then five blows, followed by an interval of twelve seconds; Station No. 172, an interval of five seconds between the one and the seven; five seconds between the seven and two, followed by an interval of twelve seconds.

JAMES KNIBBS,
Superintendent of Fire Alarm Telegraph.

This Company owns the entire water power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall, one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory building, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the quality, is the cheapest in the country. It is an unfailing power; and during the past few years, while most of the water powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson Rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty-five thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

The DISPATCH is printed on a fast PERFECTING PRESS, the only one in the city, which has a capacity of printing more than 200 complete papers per minute. In the DISPATCH plant there is installed a full battery of MERGANTHALER LINOTYPES, all of which afford every possible advantage to make an up-to-date newspaper. This has been done to meet the requirements and needs of its large clientage. The DISPATCH carries more advertising annually than all the other city papers combined. Merchants in this city and vicinity acknowledge its worth and value as a money getter, by the unlimited patronage accorded it. Sample copies sent on application.

WARD BOUNDARIES.

The city is divided into six wards, bounded and described as follows:

FIRST WARD — All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the centre line of Vliet street extended intersects the boundary line of the city; thence westerly along said line and the centre line of Vliet street to its intersection with the Erie canal; thence southerly along the centre of said canal to the centre line of Newcomb street, extended westerly to the centre of the lands of the N. Y. C. & H. R. R. Co.; thence westerly along said line to the centre of said railroad company's lands; thence northerly and westerly along the centre line of said railroad company's lands to its intersection to the northerly boundary line of said city; thence northerly and easterly along the boundary line of said city to the place of beginning, shall comprise the first ward.

SECOND WARD — All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river, where the line of Vliet street extended intersects the boundary line of the city; thence easterly and southerly along said boundary line and the centre of the south branch of said river, as it flows easterly of Simmons' island, to a point directly east of the south end of said island; thence in a direct line to the point of intersection of the centre of Pine street, with the centre of the Champlain canal; thence along the southerly boundary line of the second ward of the village (now city) of Cohoes to its intersection with the Erie canal; thence northerly along the centre of said canal to the centre of Vliet street; thence easterly along Vliet street and the line of Vliet street, extending to the place of beginning, shall comprise the second ward.

THIRD WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point, in the centre of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the centre of said south branch to a point where the centre line of Cedar street, extended easterly, intersects the same; thence westerly along said line, and the centre line of Cedar street to the centre of Saratoga street; thence in a direct line to the centre line of Columbia street, where it intersects the centre line of Mohawk street; thence westerly along the centre line of Columbia street to the centre line of the Erie canal; thence northerly along the centre line of said Erie canal to its intersection with the centre line of Newcomb street, extending in a direct line to the centre line of the New York Central railroad; thence easterly along said line of Newcomb street, and the southerly boundary line of the second ward of said city, as hereinbefore defined, to the place of beginning, shall comprise the third ward.

FOURTH WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point in the westerly bounds of the city where the centre line of Columbia street produced westerly would intersect the same, and running thence easterly along the centre line of Columbia street to the centre line of Mohawk street; thence southerly and easterly along the center line of Mohawk street to its intersection with the centre line of Saratoga street; thence along the centre line of Saratoga street to its intersection with the centre line of Cedar street; thence easterly along the centre line of Cedar street and the same extended easterly to the intersection thereof with the centre line of the south branch of the Mohawk river; thence along said last mentioned centre line of said south branch of the Mohawk river to its point of intersection with the boundary line of said city near Dyke avenue; thence in a southerly direction along said boundary line to its point of intersection with the southerly boundary line of said city; thence along said last mentioned line to the westerly boundary line of said city; thence along said last mentioned line to the place of beginning, shall comprise the fourth ward.

FIFTH WARD — All that part of the city included within the following lines, to wit: Commencing at a point where the centre line of the Erie canal intersects the centre line of Columbia street; running thence northerly along the centre line of the Erie canal to a point where it intersects the centre line of Newcomb street extended, in a direct line to the centre of said canal; thence westerly in the direct line of Newcomb street extended to the centre line of the lands of the New York Central and Hudson River Railroad Company; thence northerly along the centre line of said lands to the northerly boundary line of said city; thence westerly along the northerly and westerly boundary lines of said city to their point of intersection with the center line of the Boght road (now called Manor avenue); thence southerly along the westerly boundary line of said city to the centre line of Columbia street; thence easterly along the centre line of Columbia street to the place of beginning, shall comprise the fifth ward.

SIXTH WARD — All that part of the city comprised within the following lines, to wit: Commencing at a point in the centre line of that portion of the south branch of the Mohawk river flowing between Simmons' island and Van Schaick's island where the same is intersected by the center line of Ontario street; running thence in a northeasterly direction along the centre portion of said south branch of said Mohawk river to the northern boundary line of said city; thence along said last-mentioned line to the easterly boundary line of said city; thence southerly along said last-mentioned line to a point in the Hudson river east of the mouth of the middle sprout of the south branch of the Mohawk river; thence westerly along the centre line of said middle sprout to the centre of said south branch; thence northerly and westerly along the centre of the said south branch to the place of beginning, shall comprise the sixth ward.

This Company pays an annual dividend after the first year, from 18 to 72 per cent. on life policies, according to the age of the policy, making the insurance cost that much less than a policy where the dividends are withheld by the company for 15 or 20 years.

OBSERVER PUBLISHING CO., Proprietors.

Published Every Sunday.

Office, 285 and 287 River Street.

The spiciest and newsiest newspaper in Northern New York. The OBSERVER is a twelve and sixteen (as circumstances demand) page paper cut and folded. It has an extensive circulation in the city and suburbs, and also in all towns and villages on the line of every railroad running out of Troy, and connecting lines. Being issued on Sunday, the great reading day, it is an invaluable medium for advertisers, and is so recognized by merchants. The success of the OBSERVER has been phenomenal. Advertising rates furnished on application.

Is it your ambition to secure much desirable trade from residents of GREATER TROY, Albany, Rensselaer, Cohoes and vicinity?

TALENT, workmanship, excellent stock and equipment enter into the success of our business. There is no business that demands so much from the maker as successful monument building, and to have won and maintained success is to merit it.

This we have done, and have been successful to such a degree that we can give and guarantee to you better service than any other house, and at a less cost.

We want to talk with you—a personal interview will convince you of our assertion.

Correspondence solicited. Catalogue mailed for the asking.

REPORT
OF
PROF. JAMES HALL, STATE GEOLOGIST OF NEW YORK.
To the Commissioners of the Capitol Building, of the State of New York, A. D. 1876.

"In the selection of building stone, color, texture and durability are of the first importance and all ought to be combined to render the structure perfect. * * * * The Granite of Barre, in Vermont, is a whitish gray color, with the component parts very distinctly granular, and evenly mixed throughout, containing less mica than the Concord and Fitzwilliam Granites, and producing one of the finest building materials in the country; possessing a fine color, strength and durability."

REPORT OF PROF. HITCHCOCK, LATE STATE GEOLOGIST OF MASSACHUSETTS, AND SMITHSONIAN INSTITUTE, WASHINGTON, D. C.

'In Vermont the Granite is unusually fine and admirably fitted for architectural purposes. A better example cannot be referred to than that (from Barre) of which the State House at Montpelier is built. We have never met with a finer kind of Granite for buildings and monuments in this or any other country."

We are the Largest Retail Manufacturers of Monumental Work in New York State.

YOUNG & SONS'
"New Westerly" Granite

..... Is the Strongest Granite Worked .....

WHITE---BLUE---PINK,

Crushing test made by PROF. RICKETS, Rensselaer Polytechnic Institute, 24,950 lbs. to cubic inch. Tested one cube 1½ inches; unable to crush it. Capacity of machine, 50,000 lbs.

PAT. APPLIED FOR.

The above illustrates our patent Sarcophagus, for which we have patented the designs for the "Dater" and "Lockwood" monuments. The most successful Sarcophagus designed and on the market. Our Rustic Letters add much to the beauty of our designs.

This granite shows a greater contrast between the cut and polished parts; is even in texture and fine grained; contains no iron, therefore does not change color like some other granites.

TOWNSEND, TOWNSEND & CO., one of the largest granite dealers in New York city or the U. S., says: "BLUE NEW WESTERLY" is better and is guaranteed better than any Westerly granite in the market.

ALWAYS SHARP SHOD WITH THE NEVERSLIP

ONE TRIAL WILL CONVINCE YOU.

Your horse being **always sharp shod, is ready for work.** His feet are **always** in good condition, and he is **not** constantly at the blacksmith's being sharpened, which ruins his feet, causing great expense and loss of time to you. Remember, once shod with "Neverslips" you can easily put in new Calks when needed **without removing** the shoes.

BE SURE your horse-shoer has "Neverslips" on hand; have him SHOE WITH NO OTHER. Send your address for descriptive circular with full information, MAILED FREE.

. . . POLICIES . . .

In the JOHN HANCOCK MUTUAL LIFE INSURANCE COMPANY afford Protection, Profit and Security to the insured. These Policies are incontestable and absolutely non-forfeitable for non-payment of premiums.

They guarantee a Cash and Paid-up value as large as that given by any company in the world. They offer great liberality as regards Residence, Occupation and Travel.

The Provident Life and Trust Co.
PHILADELPHIA, PA.

The organization of this Company affords a strong guaranty of safe management for the future. There is the same need for care and intelligent discrimination in selecting a LIFE INSURANCE COMPANY that there is in selecting investments for a trust fund. The question of the first importance in either case is the question of ABSOLUTE SECURITY.
